Wisconsin (333) boasts the number two position behind Texas (429) for the most disc golf courses in each state, just ahead of Minnesota (316), California (313) and Michigan (307). In total, the U.S. has 6440 disc golf courses and over 41000 active PDGA members. Great enthusiasm for the sport in the Midwest has brought us a great opportunity to engage with this fun loving and loyal market. We hope you will jump on board helping take disc golf to the next level while promoting your business.

When you look at our website, <http://silvercupdiscgolf.com>, you will see that we have a great start on this years promotion and bringing your company into the mix will greatly assist in getting the message out to a much larger audience.
